JAMES BRUSIE,
AGENT FOR OREGON AND WASHINGTON TERRITORY.
THIS CELEBRATED WASHING MACHINE IS now for the first time introduced to the Oregon public. It is unrivalled for its simplicity, durability and the rapidity and ease of its action. Washing the dirtiest clothes perfectly clean in from five to ten minutes, with but slight labor, and lasting, with proper care, for ten years. The wear and tear of clothing in washing by this machine is vastly less than by any other known process of washing. It is easily worked by one person.
This Machine captured the Special Premium at the California State Fair, and all that have used it pronounce it an invaluable adjunct to old housekeepers and families and washing men and washing women.
It has been extensively introduced throughout the State of California, and receives the universal commendation of all who have used it.
The undersigned is now in the city of Portland, where he can be seen at Mr O. Kilbourn's Store, corner of Front and Yamhill Sts., East side, Portland, and is prepared to furnish the Machine to purchasers and also to sell and dispose of County Rights for the sale of the same.

**DATES TO JUNE 12.**

### Washington News

WASHINGTON June 13.—Letters published from Judge Abell of New Orleans, to the President, charge that all of Sheridan's acts are injudicious and subversive of the liberties of the people.

Information has been received of the murder of C. M. Davis, Special Postal Agent by Indians.

Minister Campbell has been instructed to proceed immediately to Mexico and take up his residence near the Juarez government.

In the Surratt trial, the first day was occupied in selecting a jury. The list of talesmen was exhausted and only three sworn. The Marshal was ordered to summon one hundred more jurors, who will be required to answer to whether they have formed an opinion as to the guilt or innocence of not only Surratt, but of the other parties named in the indictment as co-conspirators.

NEW YORK, June 12.—Special dispatches to the *Herald* says, "We have the best reason for believing there has been no sale of the *Stonewall* to Japan. A national vessel has finally been presented to cover the disgraceful transactions of the former vessel, in which Secretary's friends and other notorious fellowmen are implicated. The Government takes the chances of recovering the $400,000 out of which the Japanese were swindled.

The Postoffice Department, yesterday, received a bushel and a half of overland letters and packages for the East; some of which were blood stained and bags were cut.

WASHINGTON, June 14.—The Cabinet is still considering various questions arising under the reconstruction act.

Attorney General Stanbery says he has been misunderstood in being represented as holding the opinion that military commanders have power to remove State officials after trial. He holds that they have no right to remove any State officer except in their individual capacity as citizens for obstructing the reconstruction act.

The President is seriously considering the propriety of calling an extra session in August next, should Congress not meet in July.

No new jurymen were selected to-day for the Surratt trial.

### New York Items.

NEW YORK June 13.—The annual regatta of the New York Yacht Club took place to-day. The weather was pleasant, but the wind was light at the start, freshening when the yachts got outside. The yachts got off at about half-past eleven o'clock. The *Phantom* passed the stake boat ahead on her return, at eight minutes and forty seconds past five o'clock.

In the Union League another attempt to expel Greeley was made last night, but it failed.

Five distillers were seized in Brooklyn yesterday.

Japanese "Little Tommy," who fell a distance of forty feet while performing, is all right, and is now out of danger.

The *Journal of Commerce* says that ship-building is less active than ever, excepting Pacific Mail Steamers. At Greenpoint nothing is doing, and the founders are also idle, having discharged lately several hundred hands. The embarrassment is attributed in a great measure to the disorganized condition of labor. The Pacific Mail steamship Company are building three steamers—two to be called the *America* and *Japan*. They are to connect the China line with Japan. Each are three hundred and sixty-five feet long. The *America* and *Japan* will be launched, probably, about August 1st. The New York and Aspinwall steamers fall short of 350 feet keel.

In the U. S. District Court yesterday a jury was impanneled in the champagne cases. Lowrey opened for the Government.

NEW YORK, June 14.—The first new wheat arrived yesterday and was offered to-day. Southern millers are enabled to make contracts by which they can sell hand-some family flour here at $13 per barrel. Sales of California flour, yesterday, of 2,800 sacks and barrels at $12 and $14.

Capt. Willcombe, of the *Ocean Eagle*, sold at Rio Janeiro, has arrived at Baltimore. Every effort to float the ship proved unsuccessful.

NEW YORK, June 14.—The *Tribune* confesses to much uneasiness at the course of the President on removals under the military bill. It says the President is treading on dangerous ground for himself. The *Herald* ably demands a July session of Congress, and instant impeachment.

The *Post* acknowledges the receipt of a copy of the Sacramento *Union*, by overland mail, with the wrapper stained with blood, nearly effacing the superscription.

### Illinois Legislature.

CHICAGO, June 14.—The Illinois Legislature has been in session since Tuesday. The proceedings are only of local importance, the principal business of the session being to pass a law to tax national banks. The session adjourned on Thursday. A new one will be called by the Governor. The issues of the penitentiary having thrown on his hands, necessitates legislation for the government of the prison.

### Important Use for Petroleum.

BOSTON, June 15.—An important test of the plan for substituting crude petroleum for coal in steam navigation, has been made on the Government steamer *Palos*. A rate of speed 50 per cent greater than with coal was attained, and the result it is believed will create a great revolution in steam navigation.

NEW YORK, June 15.—The Boston *Traveller* says that U. S. engineers were astonished at the result of the petroleum burning on the *Palos* and deemed the event of such importance that it was telegraphed to Europe to-day. That journal says that in ten years from to-day no coal burning vessel will be in use in the world. A huge head of petroleum will generate as much steam as twenty times its bulk of coal. The result is of the greatest importance to the Pacific mail steamers to China.

### Prize Fighter Terribly Beaten.

Barny Aaron's physician expresses fear that he will not recover. Collyer's blows on Aaron's side were evidently delivered with the intention of killing him and will probably prove fatal. His heart was jarred from its place and his lungs mashed to a jelly.

### Indian Depredations.

CHICAGO, June 16.—Later Denver papers contain full accounts of the Indian depredations and murders. Gen Sheridan declares Gov. Hunt to send 2,000 men to scour the Republican River country, proceeding thence to Fort Sedgwick. Gen Sherman says he has not troops enough to protect all the exposed points, and settlers must combine to protect themselves. Most of the depredations are committed by small scattered bands. The great body of the ploney are five hundred miles from Fort Sedgwick.

L. S. Hill, division engineer of the Pacific Railroad, was killed by the Indians on the 12th inst., near this place. Nineteen arrows and five pistol balls took effect on his body. Private accounts say that not one half of the murders are ever made public.

### New York Items.

NEW YORK, June 14.—Another suicide occurred last night. A man shot himself after attempting to kill his wife. Cause, domestic troubles.

The robbers of the Bonded Warehouse on Greenwich street, have been arrested.

The *Herald* says the largest railroad consolidation ever attempted in this country is about to be consummated. It embraces five or six corporations in the extreme west. All are agreed on the Fort Wayne route.

Twelve young men were arrested to-day, who have been for a long time engaged in robbing the cars of the Pittsburg and Chicago railroads.

### Virginia News.

RICHMOND, June 14.—The Immigration Convention, composed of farmers, land owners and capitalists, convened to-day. The opinion was unanimously expressed that the land should be divided into farms in order to promote settlement. A resolution was adopted expressive of these views. Agencies will be established in the leading cities of the United States and foreign countries.

Official notice has been given that the interest of the State debt will be paid in July. The treasury has plenty of funds to pay.

Langston, the colored orator of Ohio, addressed a meeting of negroes here to-night.

### Steamboat Accident.

ST. LOUIS, June 15.—The steamer *Gov Sharkey* left this port at 2 o'clock this morning for Arkansas river, with a large cargo and 200 Government employees for Ft. Gibson. The boat, being overloaded, sunk in the middle of the stream. Both boats took off large numbers, but many drowned, and the boats, books and passenger list were lost. The number missing can never be known.

### Express Matters.

WYANDOTTE, Kansas, June 13.—The Congressional excursion party arrived here to-day. Senator Wade was called upon for a speech, but refused, saying that he would not speak in a city where lynch law prevailed and men were butchered without trial. He alluded to two colored men who were arrested here last night, charged with murder and lodged in jail, but who were taken out to-day by a large mob and hung. The rope broke, when they were shot in the Court-House yard, where the bodies lay nearly all day. The coroner's jury refused to take testimony and rendered a verdict of hung by the mob. The evidence developed to-day indicates that the men were innocent, and that the ring-leaders of the mob were the real murderers.

### Miscellaneous.

CHICAGO June 13.—The President's reply to the invitation of the City Government of Boston is that he intends being present at the dedication of the new Masonic Temple in that city on the 24th inst. He will feel honored to accept the hospitalities of the city, receiving them with the reciprocating feeling due to friendship and the courtesy which prompted the Council on their invitation.

English papers of June 1st say Charles Kean is dangerously ill with heart disease. It is doubtful if ever he recovers to the stage.

In the case of Brislin against the United States, the Vice Chancellor held

### Heartless Oppression.

The following brief paragraph from the New York *World* contains the substance of innumerable political editorials which have appeared within the last two years:

Did the conquering party, like a brave man, show its noble generosity to a fallen foe after victory? On the contrary, has not Congress, under party discipline, adopted, from time to time, continuously, ever since the peace, a series of measures, oppressive and humiliating to the last degree, toward the subdued people? Invention has been exhausted in inflicting measures of degradation upon the unhappy inhabitants of the South; to subdue their spirit and humble them in the sight of their former slaves.

Now if all this were to be understood in its literal sense it would form the ground of very serious accusations against the "conquering party." It is worth while, however, before condemning the course the victors have taken, to inquire whether it has actually been quite so wicked as this irate language represents. What are the measures which are so "oppressive and humiliating to the subdued people?" Simply that their crime of rebellion has been pardoned by a generous nation; that not a hair of their heads has been hurt by the Government they defied and tried to overthrow; that nineteen-twentieths of them have been asked to resume the exercise and enjoyment of all the rights they ever possessed; that every man who participated in the rebellion, from its chief to its lowest servant, has been allowed to depart without hurt or danger of further molestation, and that all classes of people, without regard to race or color, are to be amenable to and be protected by equal laws. This is the aggregate sum of the outrages which have been inflicted on "the South." This and this only, is what the "conquering party" has done, and in this it is said to have "exhausted invention in inflicting measures of degradation on an unhappy people." If Democratic editors will use their strongest expressions in cases like this, where do they expect to find words to describe instances of actual outrage?

We find the following item afloat upon the sea of Democratic newspaperdom. We pick it out of the Idaho *World*:

Washington county, Md., has a population of 35,000. It is one of the strongest Democratic counties in the State; and the county seat, Hagerstown, is a strong "rebel" place. There is not a prisoner in the county jail. With the introduction there of Radical reform and Puritan morality, no doubt the jail would be very soon filled.

Doubtlessly. We cannot for a moment question the supposition. The morals of the place would beyond doubt be greatly improved by filling the jail with a class of Democrats who are now at large.

Attorney-General Stanbery, in his argument before the United States Supreme Court, in support of the motion to dismiss the Mississippi and Georgia injunction bills—bills brought to thwart the people expressed in acts of Congress—though sympathizing politically with those who initiated the proceedings, used the following language, signifying an important principle: "If there is power in this Court to veto laws which the people consider wholesome and necessary, and instruct their Representatives to pass, it is high time that they should know it; but such a power has never before been invoked."

How ridiculous and absurd it is, for those who have not cooled off from the heat of war against the Union to be perpetually canting and whining about their lost rights and liberties, and railing against the laws, law makers and people of the Union, as though they were not themselves the cause of their own miseries. One feels at a loss for a mode of expression, to do justice to the contempt that he feels for such pitiful hypocrisy and meanness heaped upon such badness.

PRESIDENT LINCOLN ON LABOR.—In one of his messages he said: "The strongest bond of human sympathy, outside of the family relations, should be one uniting working people, of all nations, and tongues, and kindreds. Labor is prior to and independent of capital. Capital is only the fruit of labor, and could never have existed if labor had not first existed. Labor is the superior of capital and deserves much the higher consideration."

The Peter Force Library, which Congress purchased for $100,000, has been safely removed to one of the new wings of the Congressional Library in the Capitol. Under the efficient management of Mr. A. R. Spofford the Librarian of Congress it is being classified for use. Great care is taken of the valuable manuscript collection—the rarest and most valuable of any on the continent.

A few days ago the telegraph made mention of the impeachment of Judge Fraser of Tennessee. The cause of this proceeding against him was that he had corruptly and unlawfully released certain members of the Legislature who had been arrested under authority of the House of Representatives. He tried to escape the trial by resigning the office, but the device did not win.

The *Herald* will never correct its lying assertion that Mr. Lowndale demanded a tax of ten mills on the dollar for city purposes during the present year. It will never have the decency or manliness to do anything of the kind. The person who employs falsehood willfully, and for the purpose of injuring another, will never retract or make amends except on compulsion.

DECLINES.—Gen. Rosecrans says he will decline the Copperhead nomination for Governor of California, if tendered him. It would be difficult to understand how a man of his patriotism could accept the position of standard bearer in an organization which is known to have cherished hostility to the Union cause in the dark days of its trial.

In 1840 we consumed 24,000 pounds of opium, at a cost of $30,000. In 1850 we consumed 87,000 pounds, at a cost of $243,600. In 1860 the importation reached 110,500 pounds, at a cost of $137,750. Meanwhile the population has doubled, but the consumption of opium has quintupled.

J. W. Fripp and another person who was concerned in the late terrible tragedy at Port Townsend (W. T.), wherein two or three men were killed, have been committed to answer to a charge of murder.

William L. Mitchell, of Victoria, formerly for some years connected with the press of that city, accidently fell into a mining hole in Cariboo a short time ago, and was killed.

The Chicago *Tribune* says large sales have been made, within the last few weeks, to dealers in Denver, and that several other merchants of Denver are now in Chicago purchasing their supplies. To these statements it is added:

The completion of the Chicago and Northwestern Railroad to the Missouri River, and the rapid extension of the Union Pacific Railroad to the mountain regions, has completely revolutionized the trade of the Platte Valley and the tributaries of Colorado, Montana, Idaho and Utah. Heretofore St. Louis has enjoyed a complete monopoly of this large and rapidly increasing business, but henceforth Chicago, through her superior railway connections, and the enterprise of her wholesale dealers, must command nearly the entire trade of the mining districts of the Far West.

The Richmond *Dispatch* has the following note on the attempt to resurrect the Democratic party: "Will they fight? Not they. They humbugged the South before the late war with the idea that they were as staunch States Rights men as Yancey; but when the war trouble sounded, they got them into caves and holes, with the wolves and bats. A plague on such friends as they."

## STATE ITEMS.

They have had a pretty heavy frost in Jackson county, which has nipped "garden stuff" "like blazes."

A copper smelting furnace has been erected in Josephine county which is about ready to "fire up."

A Camp meeting will be held near Forest Grove, by the United Brethren, commencing on the 4th of July.

The Linn County Agricultural Fair will be held at Albany on the 30th of September, and will continue for four days.

The examination of Wm. Bolemaster for shooting —— Barlow near Eugene City was concluded last week. The prisoner was committed for trial.

A meeting was held at Salem on Monday evening to take into consideration the propriety of "having a Fourth of July."

A drove of 300 cattle were recently driven over the Cascades mountains by the Lebanon road. They were put through in two days.

The Fourth of July will be generally celebrated in the towns up the valley. The local papers contain programmes, etc., of the intended proceedings.

The season is remarkably dry in Southern Oregon, and crops of all kinds will be short. Hay in particular will be very scarce, and few meadows will pay for cutting.

Corvallis elected the Democratic ticket at the municipal election about a week ago. The majorities were from two to fifteen. Corvallis has usually gone Democratic.

The M. E. Church South held a camp-meeting last week on Long Tom. The texts were probably "Ham, Hagar and Onelemus," according to the ancient models.

The Salem *Record* says that four or five of the convicts in the State Penitentiary are men who served in the army duty the war. There is a Confederate or two among them.

The amount of real and personal property returned to the Secretary of State's office, for the year 1866, foots up $25,560,312 67-100, being an increase over 1865 of $957,650 39-100.

The following persons have been appointed Notaries Public: J. W. Souther, Benton county; W. W. Brown, Independence, Polk county; Orvil Dodge, Coos county; Charles W. Parrish, Portland.

M. R. Cox of Salem was kicked by a horse on Saturday, the blow striking him on the left side of the head and face, breaking his jaw and inflicting frightful gashes on his face and cheek. His injuries are severe, but not dangerous.

There is a prospect that Barlow, the man who was recently shot near Eugene City, may recover. The wound is a penetrating one, the ball having entered in the back under the right shoulder blade, and supposed to be lodged under the inner membrane of the left lung.

Base Ball, says the *Unionist*, seems to be the rage just now in Salem. We have two organized clubs, and three others talked of. We understand it is the intention of some or all of these clubs to enter the list for the championship at the approaching State Fair.

The *Unionist* understands that the State Agricultural Fair ground is being put in good condition. The race-track will be worked over and leveled down at an early day, so that it will have time to settle down, and not an easily pulverized. The managers are disposed to lavish the necessary preparations to accommodate the vast crowd which is expected, made in time.

The Sheriff of Marion county, says the *Record*, learns by good authority, that the skeleton of a man was found one day last week near Champoeg. The flesh had not entirely decayed from the bones. Much speculation exists as to the circumstance. The body appeared to have been concealed, by brush, and there is suspicion that murder has been committed.

The *Unionist* says: The gay and festive Elavius Josephus White, who was sentenced to the Penitentiary for the crime of bigamy from Kemhill, county, some time ago, and who escaped in the flight of the general stampede last fall, was captured not long ago, and on last Thursday retirned to the custody of Major Berry. Capt. Beal, of Sacramento City, brought back this man, whose only crime was loving too many, and he is now contentedly brick-making, and perhaps dreaming—fondly dreaming—of his last loved one at home.

The Teachers' Institute of Linn county will be held at Woolyon Chapel near Brownsville, commencing July 9th. The objects of this Institute are to devise the best methods of imparting instruction in the various branches of Education, to secure an uniform introduction of the best text-books, and to give opportunity for such criticism and discussions, and interchange of views on subjects relating to the cause of Education, as shall secure a more thorough and complete system of instruction.

The following is a paragraph from a letter written from the Dalles to the Walla Walla *Statesman*: "A joint stock company has just been organized at the Dalles, for the purpose of issuing a daily morning newspaper. The names leading the enterprise comprise the most prominent men of the Dalles. The new paper is to be devoted to the interests of the country East of the mountains, and to politics is to be conservative union, supporting Johnson's policy. It is understood that Hon. Orlando Humason is to preside over the editorial columns. Under his management the paper is sure to wield great influence. I understand that an agent will at once be dispatched to San Francisco for the purpose of purchasing the press and material." A political paper conducted on such principles as these will wield about as much political influence as an old lady's sewing society.

On Monday last, says the *Sentinel* of the 15th, we saw eleven emigrant wagons, with families, from the Willamette valley, wending their way towards California. The most of these people assign dislike to the climate of Northern Oregon, as a reason for leaving. One very intelligent person with whom we conversed expressed a desire to locate in this valley, but said that in his consideration the education of his children of paramount importance, and that in California educational facilities were much greater than in Southern Oregon. While admitting the general correctness of his remark, we found food for reflection in it, and we look forward with confidence to the time when our section will have such a reputation for educational advantages as will induce people, who are anxious that their children should acquire knowledge, to make their homes among us and not seek them elsewhere.

MRS. HIPPIAH M. VANTER, of New York City, testifies that she was acquainted with and worked on the Florence, Wilcox & Gibbs, and Wheeler & Wilson Machines, and that the Grover & Baker was superior to either. Her reasons are: "First, the elasticity of the stitch; second, the ease with which the work can be taken out when it is necessary, also the capability of making the embroidery stitch; the little trouble required to work the machine. My little eight years old can work the machine as well as I can, almost." W. Carrier & Co., Agents, 103 Front street, Portland.

THROAT AFFECTIONS.—A Physician writing from Nyack, New York, speaking of the beneficial effects resulting from the use of "*Brown's Bronchial Troches*," says: "For alleviating that horrid irritation only felt by those who have suffered from any *Bronchial Affection*, and for Hoarseness and Sore Throat, too, I am free to confess (though I am an M. D.) they answer all you claim for them." To avoid disappointment, be sure to *obtain* the *genuine* "Brown's Bronchial Troches."

THE BEST AND SUREST REMEDY IN THE WORLD for all diseases with which children are afflicted during the process of teething, is MRS. WINSLOW'S SOOTHING SYRUP. It not only relieves the child from pain, but invigorates the stomach and bowels, cures wind colic, and, by giving quiet sleep to the child, gives rest to the mother. Perfectly safe in all cases. 35 cents a bottle. Hostetter, Smith & Dean, Agents for the Pacific coast.

A SEA WALL.—The great work of erecting a massive sea wall around the entire city front has been commenced in San Francisco. The sea wall once finished San Francisco will have as fine a harbor as any in the United States. JOHN & WISHEL, No. 91 Front street, have adopted a rule of trading that is as beneficial to them as the sea wall to San Francisco. They ask but one price for their fine and custom-made Clothing, Dry Goods etc., and that price is so low that every person is satisfied that it requires no advertised figures to prove it, as facts are more positive proofs.

REDDING'S

RUSSIA SALVE!

[ESTABLISHED 1856.]

Price 25Cents per Box.

Is the Universal Remedy for

BURNS, SCALDS, CUTS, BRUISES, and all FLESH WOUNDS; for CHILBLAINS, CHAPPED HANDS, PILES and OLD SCROFULOUS SORES; ERUPTIONS, BLOTCHES, SALT RHEUM, and all CUTANEOUS DISEASES.

REDDING'S RUSSIA SALVE is a *purely Vegetable Ointment*, made from the very best materials, and combines in itself greater HEALING POWERS than any other preparation before the public. Its timely application has been the means of saving thousands of valuable lives, of relieving a vast amount of suffering, and wherever used has proved itself in reality a BOON TO SUFFERING HUMANITY.

SIXTY YEARS' GENERAL USE OF THE RUSSIA SALVE IS A NOBLE GUARANTEE OF ITS INCOMPARABLE VIRTUES AS A HEALING OINTMENT.

The very large sale of REDDING'S RUSSIA SALVE, during the past *sixty years*, has given rise to hundreds of unworthy imitations, but throughout all opposition, the RUSSIA SALVE maintains its supremacy as a *reliable preparation*, having a steady and permanent sale, and never deteriorating in quality, by age or climate, and is sold to dealers at a price enabling them to realize a generous profit by its sale.

For sale by all Druggists and Apothecaries.

DEATH OF MAYOR HOLMES.—Just before going to press last evening we received the startling intelligence of the sudden death of His Honor, Mayor Holmes. Owing to the lateness of the hour, we were unable to obtain particulars. The tolling of the various bells of the city aroused a large number of our citizens, who on hearing the sad announcement repaired to the residence of the deceased. Both the editor and reporter of this paper having retired in their honor we are unable to give a more extended notice of this unexpected event.

TRACHER'S INSTITUTE.—The proceedings of this institute were kindly furnished us by Rev G H Atkinson, County School Superintendent. The session was held in this city on Friday and Saturday last was attended by twenty teachers, ten gentlemen and ten ladies. The subjects previously assigned, were presented by the several committees, and were discussed and illustrated as fully as possible in the brief time allotted to them. Upon some topics new thoughts and new modes of instruction were suggested. The subject of orthography, reading, arithmetic geography grammar especially rhetorical exercises, school order and government, elicited a deep interest. The interchange of views, and the decisions reached by vote respecting the methods of teaching and the text books to be used will doubtless promote unity and elevate the standard of instruction in our public schools. Special attention is given by our best teachers to the study of the letters to distinct articulation and correct pronunciation. In some cases only single paragraphs are assigned for a reading lesson to be read again and again by the whole class. Arithmetic is taught more by principles than by rules and geography is not confined to mere localities, but its researches are extended into the physical conformation of the earth and the condition of animated beings. There was a sharp contest concerning the mode of teaching grammar, whether it would be according to etymology which the great majority of grammarians, or according to syntax with Mr Clark and his admirers. Does the word so determine its office relation in a sentence so to preserve its identity in whatever connection it is placed? Or does the official relation control the word and essentially change its meaning? In the phrase, "William's hat," is William's a noun in the possessive case? or is it, as Mr Clark affirms a pronoun specifying adjectively? Can a pupil ever understand grammar if taught that words lose their identity? The teachers unanimously are agreed that rhetorical exercises, such as declamation and composition promote other studies, that music should be cultivated as an art in schools for its fine effect upon the feelings and taste of pupils, and to render it an accordance for its higher results as an act; that order in going from and leaving to the seats with careful and complete registration of names, absences merits and demerits conduces to the good and easy government of pupils and also to their moral worth and happiness, while not dispensing with the rod for its frequent use is more and more depreciated by the wiser teachers. It was voted unanimously to adjourn the County Institute to the second Friday in October and that the same committees then report upon their respective topics again. The exercises of the two days were well calculated to increase the respect for our public school teachers and to honor their profession.

ACCORDEON INSTRUMENT.—We saw, yesterday, at J. L. Parrish & Co's something new in the way of an organ or French instrument called the Organ Harmonium—invented by Alphonse Rodolphe. It is a very considerable modification of the organ as we have them from the manufactories. It is provided with sixteen stops each of which exercises a distinct and peculiar effect upon the tone. The base stops are the Bourdon, Jeu flute, sweet) Bassoon, Clarion, Bourdon, English Horn the treble stops are Expression, Tremolo, Scotch Flute, Clarionette, Fife, Haut Bois, Voix Celeste Forte, and Bass or Full Extra Bass. The effect of these stops in changing the tone is most surprising for in some from the Flute to Voix Celeste with Full Expression, the tone changes from what sounds precisely like a soft flute, to the full grand harmony which we would expect from an Angel choir—what the name imports. Other changes are no less surprising. The instruments are of the most perfect workmanship and of the highest finish have taken the first medals at all the great European Expositions. The prices range from $175 to $500. Persons in want of an instrument should call and see them, as it is impossible to get a correct idea of them except from personal inspection. J L. Parrish & Co., are sole agents for the Pacific coast.

CIRCUIT COURT.—MONDAY, JUNE 17.—The following are the grand jurors drawn and sworn in at the present term of the Court: Wm Connell, foreman; Gustavus Murdock, P J Mann, James Brush, Nathan Brand, Albert Addison, James F Bybee. The other jurors were excused until July 8th at nine o clock A M. Mr Kilmo was appointed and sworn in as crier, F A Clark and H Olmo were appointed and sworn in as bailiffs. Michael Carey was admitted to citizenship. The case of Zoe Ecu vs. Francis Ecu was referred to O P Mason to take the testimony and report as soon as practicable. The case of I Bowen vs. Mary J Bowen, was also referred to O P Mason to report testimony. Appollaus Kramer vs. Paul Kramer, was also referred as above. Mary Wilkinson vs Joshua Wilkinson, was also referred as above. Virginia E. Rogers vs. O. H. Rogers, was also referred to O P. Mason.

[illegible] F—Inquest over the body of the person who committed suicide on Monday, was yesterday continued, and closed with the following verdict: "We, the jurors in the foregoing inquest find that deceased came to his death by his own hands having cut his throat with a pocket knife. The evidence does not reveal his name. We think it a clear case of suicide, and that he committed said act on or about 3 o'clock P M of the 17th day of June, A D 1867." The evidence elicited the fact that he had worked in the Santiam mines for the Union Mining Company, of which James Gardon was superintendent, the witness, J. L. Tucker, having known him there. He did not know his name, but was familiarly called "Jack." Mr Tucker has seen him frequently about Salem since leaving the mines.

GONE.—Capt. Crandall, the chief of this department of the OREGONIAN has left us, only for a time however. The last we saw of him he had secured somebody's carpet-sack, and we imagined from the bulk of the same that some kind friend had loaned him an extra article of "under-cotton." It is supposed that he has gone to spend a few days with his friends up the "silvery Waral" Cowlitz; that sincere hope is that he may be treated by those Salem editors, and all others with whom he may come in contact, as he verily deserves. Of course: as a proud Knowing the regal prerogatives of local editors, would for one moment think of demanding remuneration for anything he may wish to eat, drink, or enjoy. May he Captain return to us safely, and in good health from his usual journey.

S P AJAX.—We could not obtain the freight list of the departing vessel owing to the great rush of freight which prevented the Purser from making out the same. The following are the passengers berthed for a trip to San Francisco: Mrs J R. Robins, W Watson and wife, Mrs. E. F. Watson, L. Harris, Mrs E Harris, E B Cramer, H G Grob H Freidman and wife, John Freidman, Charles Cook, Wm Strong A McCray, Geo Beal, Miss Annie Castello, J B Nichols, wife and three children, Mrs Fuster, Mrs Jordan Mrs H Apel and three children, Geo W T Elliott, Geo C. A Whither, Miss L H Marshall, Major J T Hoyt, J N Horn, Jas Foster, C J Gibson, W Sunand H Trantman, C Hilderand J Jones S Simmons, J C Ainsworth, J O Bell, M S Bunnell.

CELEBRATION OF THE 'FOURTH.'—The Washington Guards are desirous of celebrating the coming "Fourth of July" in a becoming manner, and in furtherance of their object they have furnished us the following, signed by Charles S Mills, Wm Young and Alex. Campbell, Committee: "The Washington Guards desire to celebrate the 91st anniversary of American Independence in a manner becoming the occasion, and in the absence of any movement having been made by the proper authorities or others we do most earnestly and cordially invite any and all Military, Fire or Civic Associations, having any interest in the matter, to send committees of conference to make the necessary arrangements, on Thursday evening, at 8 o'clock, at the Council chamber."

THE TRANSIT OF MONDAY.—As Mr Mossman of Salem, was coming over the Macadamized road on his way to the city, he met persons who warned him to be on his guard, as just ahead of him was a crazy man, who might be dangerous. Shortly he came up to him and the man was just to the act of cutting his throat, and was immediately in the center of the road. Mr M's horses became frightened, and his wife, who was accompanying him, also being terribly scared, he could do nothing to prevent the suicide from effecting his object. Mr Mossman drove on to the toll-gate and informed parties there what a tragedy was being enacted who immediately went to the spot and found the man lying in the road.

THE AJAX'S FREIGHT.—Through the kindness of Mr. Johnson, Agent for Camp & Co., we are enabled to publish the list of freight taken by the *Ajax*, yesterday:—9,823 qr sks flour 316 gunnies bacon 100 boxes paper, 35 cases lard 357 bf bbls salmon, 61 cases mdse 5 kegs white shot, 5 bf bbls cider 25 empty bbls, 1,550 sawed and mats number headings, 3.0 sks wheat, 1 piano, 36 boxes of eggs 25 rolls leather, 5 tins matches 4 bales furs, 20 dry hides 203 bales wool, 254 bf bbls dried apples 96 bf bbls butter 12 sks green fruit, 2 live elk, 1 thresher and thresher combined, 9 bags U S mail.

GOOD TEMPLARS LODGE.—Capt. Adams organized a lodge of Good Templars at St Johns of fifteen charter members to be called the "Sunnyside Lodge." The following is the list of officers: Benjamin O Severance, W C T; Mrs. Ellen L Dorw, W V T Monroe M Hunter, W S; Miss Margaret J Richards, W A S, Frank A Lonsdale, W F S Miss Celia Brown W T Louis W Watts, W M, Miss Joanna Richards W D M, Miss Elizabeth A. Lamworthy, W I G, Presley P Severance, W O G Henry A. Rankin, W C, Capt Jonathan T Gerow, P W C T and Lodge Deputy. The Lodge meets on Wednesday evening of each week at 7 30 P M.

HARDWARE.—Jacob Underhill & Co, 51 Front street corner of Oak, dealers in hardware of all kinds and descriptions, have on hand as usual a large and varied assortment. Particular attention is called to their assortment of steel. In this branch of the trade they are prepared to fill all orders, however varied. This firm have houses at San Francisco, Stockton and Portland, and import direct from the manufacturers, hence better bargains and better articles can be obtained of them than ordinarily are at other establishments who purchase at second hands.

FIRE.—In the Recorder's Court notice this morning, we omit the names of those arrested and fined by his Honor being willing to suppress names, especially when the cause of their getting into difficulties is attributable to the enthusiasm created by a charter election. There are other disturbances which we have passed over for the same reason. But hereafter, unless the circumstances are peculiar, our suppressions will not be so extensive.

FESTIVAL.—The ladies of the Unitarian Society will give a Strawberry Festival in Monnette's building First street, third door south of Esenahan's Picture Gallery, on Thursday the 20th June. Undoubtedly a pleasant time will be had.

COURT DECISION IN IDAHO.—The following decision of a point under the laws of Idaho, may be of interest to the legal profession of Oregon. The decision was made by Chief Justice McBride, who held that the bond, or undertaking in attachment "must be signed and executed by the plaintiff, as well as his sureties; and that one only declaring by sureties alone was insufficient. As in opposite practice has prevailed heretofore, it is important that all lawyers should take notice of this ruling. In the above case the attachment was dissolved on that ground among others."

CALLS FROM ABROAD.—Judge Strong, we understand, received a call to deliver an oration on the Fourth of July, at Albany, which, however he will be unable to accept, as he is forced so he informs us, to make a trip to California. B A Cronin Esq., was invited to perform the duties of orator in Yamhill county on the occasion of the Fourth, but will not be able to attend. S A Morehead, Esq., received an invitation to deliver a Fourth of July speech at Powell's valley, on Independence day. Whether he will accept or not we have not learned.

LUMBER.—A large arrived yesterday from St Helens, in tow of a steamer, loaded with 50,000 feet of lumber, and a large quantity of cord wood. Twenty nine thousand feet of the lumber is intended for the school house in the First Ward of our city, in the building of which over a hundred thousand feet will be required. The balance of the lumber consisted of heavy plank being intended for the erection of the bridge on the Macadamized road, which is a very much needed improvement.

RECORDER'S COURT.—In this Court yesterday morning was brought to a climax the enjoyments of election day. Several arrests had been made and bonds given for the appearance of the parties before his Honor. One case was continued till this morning. The aggregate amount of fines will more than pay expenses of the election to the city. On an occasion like yesterday our city is self-sustaining, surely.

ARRIVED.—Hon S B Fargo, late Prosecuting Attorney, Walla Walla, arrived in the city on the *Cascades* yesterday. He has in his charge Wm Riley, the murderer of Mr Stevens at Colville. The prisoner was convicted and sentenced to twenty years in the penitentiary at Steilacom Washington Territory.

RECOVERING.—Judge Shattuck is rapidly recovering from the wound he received while working on his farm and it is hoped that by the second Monday in July, to which time the civil business of the Court was adjourned he will be able to attend to business with his usual diligence and industry.

CORRECTION.—The returns of the election as we published them yesterday morning, were correct except in two particulars as follows. Hoffmann's total vote was 689 instead of 691, and Berry's vote should be 640, instead of 639.

TO ARRIVE TO-DAY.—Hon Alvan Flanders, Delegate elect to Congress from Washington Territory, and Hon S Garfielde, will arrive to-day in the *Fairhe Troupe*, from Vancouver.

FOR SAN FRANCISCO.—The steamship *Ajax* sailed for San Francisco last evening at six o'clock, with a heavy cargo, the largest, we understand, that ever left Portland in one vessel.

PRODUCE.—The *Senator* brought down the following freight, yesterday: 2,262 sks flour, 9 bf bbls produce, 135 bales of wool, 17 boxes eggs, 190 sks wheat, 3 bales mdse.

CIRCUIT COURT.—This Court will convene to-day to receive communications from the grand jury, whose labors have just fairly commenced.

COUNTY COURT.—In the County Court on Monday last, Martin Gilliham was appointed guardian of [illegible] Potter, an infant child.

FOR HARRISBURG.—The P T Co will dispatch a boat this morning for Harrisburg and other towns on the upper Willamette.

IN TOWN.—Hon. W. Carey Johnson is in town, looking quite well, and seemingly as well contented as is his usual wont.

SAILED.—The steamship *Orifiamme* left San Francisco yesterday for this port.

THE CONSTITUTION OF OREGON provides that the people are entitled to buy their clothing wherever they please. It is a habit of Berman Bro's. never to be undersold by any house in this city or the State, on corner Front and Morrison streets, Portland.

WHY THE FAMILY DYE COLORS ARE USED.—The celebrated *Family Dye Colors* of Howe & Stevens are in almost universal use—1st, Because they are the best in the market, 2d, They cost but little, 3d, Can be used in any house hold with the ordinary utensils of the kitchen; 4th, In dyeing every color that is wanted, 5th Never injure the most delicate fabric, 6th, Save the necessity of getting new garments. Sold by Smith & Davis.

THE WIDE AWAKES will meet for practice this evening at 5 o'clock.

A woman in Maine who bound her child to the Shakers has recovered it under a writ of *habeas corpus*, the mother being a married woman having no right to bind her child

Ex Governor Henry S Foote drew the following sombre sketch of himself in a late speech in St Louis "A poor, unpardoned rebel, humbled in spirit and paralyzed in all my energies, disfranchised reviled and disregarded by thousands who once professed to love and to respect me a torturn Parish in my native land.'

The Charleston *Courier* records the fact that the first criminals sent to the State Penitentiary were thus punished for an offence against a freed man. Williamsburg District sent two white men to that place of penance for the offense of stealing bacon from a freedman But three capital offences have required the sentence of the Courts in session there, during the last sixty years They were committed by one white man and two negroes, respectively

One of the German papers in the west is taking its revenge upon delinquent subscribers by publishing their names in a "black list," giving the amount of indebtedness, and any biographical information which can be collected with a natural bias, however, toward facts which disagreeably involve the character of the sinner Thus, it is stated that "Mrs. Jones, formerly of Smithville whence she eloped with a man after her second marriage, owes $2 20."

Mr Horace Greeley is well known to have been from his early years a strictly temperance man in everything but the use of language, although it is said he has lately begun to drink tea. But the extent of his abstentiousness has never been adequately known, for the New York correspondent of the Rochester *Democrat* mentions the Temperance House, 65 Barcley street, where in his early days of journalism "Mr. Greeley took in wood and water."

The West has a new sensation. A young man is in the habit of visiting the large cities, and in front of some of the finest residences, usually where a couple of young ladies happen to be sitting, he is suddenly taken with hemorrage, the blood flowing copiously from his mouth. Of course he is taken in the house, where his story is is that he was in the war, had a bullet in his heart, has been imprisoned and all that, which of course, elicits the sympathy of the crowd, and every lady comes down handsomely. The fellow recovers very rapidly and decamps.

At Fort Wayne, Indiana, on the 30th of April, a peaceful German named Felgie was attacked at night in a secluded portion of the city, by three villains, who beat him unmercifully with clubs and then robbed him of about $600, and left him, as they supposed, dead. Fortunately he so far recovered as to be able to identify one of the party a notorious confidence man named Jack Ryan, who, with two of his colleagues, were arrested. The Germans turned out en *masse*, determined to have revenge by mob law. They were with difficulty restrained from lynching the whole party.

James Parton has written a letter to the New York *Times* defending himself from the charge writing "recklessly." He says: "I do not respect a reputation not founded on merit, nor talent ignobly employed. Valor, self-control, integrity, perseverence, consideration for others, I hold in the deepest respect, by whomsoever those virtues are exhibited. I respect Henry Clay because he possessed them; I do not respect Daniel Webster, because he had them not. I respect poor John Randolph, because, with all his foibles, he was a man of honor. I can but believe he was sincere."

The New Albany (Ind.) *Ledger* says that on the 16th inst., eight or ten ruffians, armed with clubs, went under cover of the night to the house of a peaceful and law-abiding citizen of Little York, in Washington county, in that State, broke open the door, dragged him from bed, took him outside and tied him to a neighboring tree, and then in the presence of his wife and children, and notwithstanding their tearful entreaties, beat him over the head, face and body until they supposed him dead, when they went off through the woods, yelling like so many mad devils. The leader of the gang and his confederates have been arrested.

Gen. Butler has received the advance proof sheets of his book upon the Campaigns of the Army of the Potomac, and is holding the same under the advisement of his friends as to the propriety of issuing the work at this time. It is said that the preponderance of influence goes against its publication, under the belief that it will materially lessen Butler's prestige in his proposed stand upon the impeachment question. It is remarked by those who have conned the book, that it is especially vindictive in its reference to Gen. Grant, and mainly devotes its chapters to undermining the military genius of the closing campaign of the army of the Potomac.

The investigation into the origin of the Lindell House fire, made by the Chief Engineer of the St Louis Fire Department, shows that the fire had been raging at least one hour before the firemen were notified; that the large cisterns of the hotel constructed for just such an emergency were not used at all; and that the time previous to summoning the Fire Department was consumed by the employees of the house in imbecile attempts to extinguish the fire with buckets. When the fireman arrived the heat was so great and the smoke so thick that they could not remain in the house, and the height of the building prevented the engines from throwing water upon the roof.

A despatch from Cairo, Ill., gives the following snake stories: "A little boy, while playing in the fields, stepped into a hole in which lay coiled four poisonous snakes. On being thus disturbed they thrust their fangs into his foot, from the effects of which he died In Jacon county, two little girls, while raising eggs under a house, thrust their hands into a nest where lay a large rattlesnake When bitten the children supposed that the hen had pecked them The threatening appearance of the children's hands led their mother to investigate the matter, when the snake was found coiled in the nest. Both children died in less than 24 hours."

The records of the War Department show that there are now confined at the Dry Tortugas fifty prisoners, of whom nine are citizens and forty-one soldiers. The citizens are Mudd, Spangler, Arnold and O'Laughlin—the assassination conspirator, Col. St. Leger Grenfel, sentenced to life-long hard labor for conspiring to release prisoners of war, John W. Adair, a South Carolinian, sentenced for five years for robbery, John Walters, ten years for manslaughter; James Kelley, for life, for murder; and Sam. Henry, three years, for assault with intent to kill. Of the soldiers, eighteen were sentenced for desertion, seven for assault with intent to kill, and six for robbery.

The Louisville *Courier* of May 11th, says: Judge Lynch held another session of his Court in Boyle County on Saturday last. On that day two men, one of whom is named Simmons, *alias* Patterson, living near Mitchellsburg, were taken before Judge Lynch and his regulators, and sentenced by them to receive thirty-nine lashes each, and to leave the county immediately, under penalty of death. The first part of the sentence was executed on the spot; and we are informed that the victims of the regulators' vengeance hastily packed up a few articles of clothing and left the county on Monday. These men are charged by the regulators with being guilty of numerous crimes, one of which is the murder of an old lady by the name of Bolton some time ago.

A New York special says: There has been a convocation of leading Democrats in this city, and the party is to be organized on the following plan: To ignore the negro altogether and bring up internal improvements in his place. They will pledge themselves in favor of the Niagara ship canal, in favor of connecting the Chesapeake bay with the Ohio, in favor of constructing the Mississippi levees, and of pushing forward to completion of the three lines of the Pacific Railroad It is calculated that on these issues they can carry the great West, especially if free trade be tacked on, while of their success in the Middle States they profess to have no doubt. That is the programme in outline. It will have some filling up in regard to the Monroe doctrine, the constitutional obligations and the binding force of the Supreme Court decisions; but internal improvements and free trade will be the two pillars on which the platform will be made to rest.

FACETIA.—There is a great business done in New York city in neckties, but not near as large as there ought to be.

All who take the best of drinks are always well-supplied.

It is oftner women than her wrongs that needs to be redressed

A schoolmaster asked one of his fair pupils, "Can you decline a kiss?" Dropping a perplexed courtesy, she modestly replied, "Yes, sir, but I don't like to"

Men are often deserted in adversity. When the sun sets, our very shadows refuse to follow us

"What is whisky bringing?" inquired a dealer "Bringing women and children to want," was the appropriate answer

Women's Mission—To keep the fireside while man goes out and collects materials to make the pot boil.

"Woman is at the bottom of all mischief." "Yes," said Frank, "and when I get into mischief, my mother would soon be at the bottom of me"

"Shall I leave some tracts here?" "Yes," said the irritated burgher, "with the heels toward the door."

THE RUSSIAN PURCHASE—HOW IT WAS DONE—MR NASBY REALLY THE ORIGINATOR OF THE SCHEME

WASHINGTON April P4, 1867

It's done! Seward did it—hain and gone! The American eagle hez got a new to scream with to doubled energy El the nashnal bird wuz a angel I shed remark to it, 'Toon your harp anoo' but it ain't, and therfore such a request would be ridiculous The rapeody hez reference to the Roodian purchase

The idea originated in those massive intellects When I wuz here afore, the Blairs, all uv em, wuz a crowdin the sainted Johnson for a mishun, Cowan wanted a mishun, and so did Doolittle and that day pretty much all uv the delegation to the Cleveland and Philadelpy conventshens hed bin there wantin some kind uv a place, with, they wuzn' particular One gentleman whose nose (which trooly blossomed ez the lobster) betoken ed long service in the party, urged that he hed bin a delegate to both convenshons. "Thank God!" sed Johnson "Wood that both uv them convenshens hed bin made up uv the same men I wood then hev bin bored for places only half as much ez I am."

I wuz a helpin him out in my weak way. When the crowd wantin places become too great for human endoorance, I would say, in a modrit tone, "let's go out and get authin," and to wuss it fully half wood exclaim, "Thank you, I don't keer if I do." It wuz a great relief to Johnson, but wuz pizen on me With the most uv em, the anguish, anxiety and soliicitude in the gettin uf offices and free drinks wuz about an ekal thing The offices they wanted wuz merely the means to that portshuler end, and so long ez they wuz gittin the latter without the trouble uv the former, they wuz content. A good constooshen and a copper lined stumick carried me thro this tryin ordeal, until I came across a Boston applicant, who, in consekence uv the perhibitory law, bed bin for some time on short rashens, and wuz keen out Napoleon bed then met his Wellington, and I succumbed. The man's talent wuz wonderful

Sekretary Seward wuz in trouble about the Blair family, portikerly He hed did his level best for em He hed appinted em to Collektorships and furin mishuns, but the orneol Senit, which hed no respekt for us, took delite in fastening uv em onto us by perpotooally rejootin em. Jest after a long seige by Montgomery and the old man, I sejestid the purchis uv the Rooshin Territory, to wich not only they orned be sent, but a thousand uv others wich we hed on our hands, and the Sekretary wuz so pleased at the idea that he wept like a child. With a vigger wonderful in one so old, he sot about gittin testimonials or to the valyoo uv the territory, to influence the Senit in ratifyin the treaty he was again to make. And he wrote to a naval officer to do, ez follows:

"It's truely a splendid country. The trade in the skins uv white bears kin be, of properly developed, made enormous. There is seals there, and walruses so tame that they come up uv their own accord to be ketched.

"P. S.—In case the purchis should be made, a naval stashen will be necessary. May I hope that my long services on the Florida coast would prove sufishent recommendashen for the command of the depot? May I?

A distinguished Professor wrote:

"The climate is about the style uv that they hev in Washington. The Gulf Stream sweeps up the coast, causin a decided twist in the isothermal line, wich hez the effeck uv making it rather sultry than otherwise. Anywheres for six hundred miles back uv the coast strawberries grow in the open air. I recommend strongly the purchis.

"P. S. In case the purchis is made a explorin expedishun will be necessary. May I hope that my scientifick attainments are sufishently well known to you to reckommend me as a proper person to hed the expedishun? May I? I hev the honor to be," et sektry.

The President wuzn't favorably inclined. He wuz full uv the old fogy idea that it wuz rather chilly there than otherwise He hedn't faith in the isothermal line, and wuz skeptical about the Gulf stream. It wuz his experience that the farther North you got the colder it wuz. For instance, he remarkt, that while the people wuz warm toward him in Virginny and Maryland last fall, they become very cold ex he got North. Wher wuz the isothermal line and the Gulf stream then?

Randall, who will hev his joke, remarkt that the isothermal line was twisted. He noticed that the people made it ex hot for em ex he wanted it ex fur north ex Cleveland to wich Sekretary Welles replied that it only confirmed him in the opinion that, for platin vessels uv war, Iron was preferable to pine plank any time.

Seward removed the President's objections to wunst. He read his letters wich set forth the beauties and advantages uv the country twict over. Here wuz whales, and walruses, and seals, and white bears, and apples and wheat, and sea lions, and fields of ice the year round, in a climate ez mild and equable on the meridian uv Washington. The isothermal line was more accommodatin there than in any other part uv the world. It cork-screwed through the territory so ez to grow fine peaches for exportation to the States and ice to the Sandwich Islands, side by side. He drawed a picter uv the white bear a rushin over the line and disportin himself in fields uv green peas. Imagine, he remarked, the delitesey uv Polar bear meat fattened on strawberrys—think uv the condishun the sea lions must be in which they leave their watery lairs to feed on turnips wich grow above the 60th parallel—think uv—

"It won't do," sed the President.

"Think uv," retortid the sekretary with a quieknis of intelleck remarkable, "THINK UV GETTIN RID UV THE BLAIRS FOREVER!"

"Will the Ablatha Senit ratify the treaty?" askt Johnson eagerly.

"I converset with many of the subjick, and they sed of we good promise that the Blairs wood accept posishens they wood do it cheerfully. For sich a purpose, sed one uv em to me, $7,000,000 is a mere bagatelle."

"I'll do it," sed Johnson. "I agree with the Senators for once. Rather than hev it fail I'd pay it out uv Mrs. Cobb's share in our joint speculations Freedom from the Blair family! Good Hevings! kin one man be so blest? Is ther such in store for me? $7,000,000! Pish!"

My opinyun bein askt, I give it. Ez hefty ez the vencher is from the commershel stan-pint, in a politikle pint uv view, the advantages will be still hoftier. The Rooshen Territory will finally be the chosen home uv the Democrisy. There is already populashen there adaptid to it, who kin be manipulated without trouble, and client is favorable to a strictly Dimocratic populashen. The trouble with us here is that the amount uv likker necessary to the manufakter uv a Dimocrat kills him afore he hez a opportunity uv votin many times, which keeps us in a perpetooal minority. Our strength is, for climatic reason, our weakne s. Fur different is it in Roosha. There the happy nativ may drink his gaut per day—the breshi atmosphere makin it absolootely necessary for him. Ther is the troo Democratic paradise How often hev I sighed for such a country. Then, agin, there are posishens uv profit The delegates to Congris will, of I hev figgered it rightly, draw about $1o,000 per session, miledge, which is $30,000 per year, $60,000 per term. He could afford to serve without the paltry $3,000, with wood he cheap legislatin, indeed.

And so it wuz agreed upon, and the treaty wuz made by telegraph at a expense uv—I forgit exactly—but I think it wuz summers in the neighborhood uv $20,000, before it wuz finally consoloodated by the Zar, which run the price up to $10,000,000, but that wuz nothin for us Seward went at his work with great energy The Purchis was divided into six territories (for the number of delegates to our convenshuns wuz large and they all hed to be provided for), wich wuz named, respectively Johnson, Seward, Jowan, Doolittle, Randall and Wallas For the one in the extreme North, the furthest off, Frank Blair was appointed Governor; for the next, Montgomery, and the next, the old man, and the other three wuz held in reserve for the pure but unfortunate patriots wich might be hereafter rejected for the Austrian mishun A list wuz prodooced uv the delugates to our various convenshuns and them ez hed bin martyred by the Senit, thur names wuz put into a wheel ez at Gift Enterprises, and the judgeships, marshalships, clerkships, et cetty, wuz drawd by lot This plan was selected by Postmaster General Randall, ez bein the easiest way of doin it He stated that the appintments from his department had alluz bin made in this manner ez it saved time in eggsaminin politicuns, certifikets uv fitniss and sich In this way, about ez near ez I kin estimate, two per cent uv those claimin pussishens at our hands hev bin provided for

The idea is capable uv unlimited extension The Administration feelin the relief it hez gin, are already negotiatin for the British Provinces This territory kin, by makin uv em a little smaller, be divided up into, say forty, with, by makin a few more offices for each, and bein liberal with explorin expeditshuns and sich, will be sufficient to give places to all who really hev claims upon us and who are pushin us.

The President breathes easier, and the Secretary is placid ez a summer morning He hez cut the Gordian knot he hez relieved himself uv the honconstrokter wich wuz crushin him in its folds Happiness pervades the White House!

## Bill Simpson's Legal Experience.

Many years ago the Legislature of Tennessee passed an act to organize the county of McNairy, alias Snake At that time the country embraced in the limits of Snake was occupied by a sturdy set of backwoodsmen totally unacquainted with courts, juris, etc The county assembled at the appointed site for the purpose of cutting logs, making boards &c None of them had ever seen a court in session as yet developed Each one would give what his idea was of a court &c None however, were entirely satisfactory, until Bill Simpson was called on to give his ideas He said he knew all about a court—that he had a lawsuit in North Carolina One of his neighbor's hogs kept coming when he fed his hogs, until he got fat. One morning he got so mad that he shot the hog He thought it would not do to throw it away so he cleaned and salted it Shortly after his neighbor and a man came to his house, examined the smoke house, and took him to town and put him in a little office. About three months after that this man came and took him up to a large room. A large man sat upon a big bench—a man was sitting at a desk—about a dozen fine dressed men sat in a place that was railed around The man put him in a pen that was just behind them He then called in twelve men, they took their seats in a box in front of the fine dressed men The man that was writing gave the twelve men a book and said something about Bill Simpson and the State Then one of the fine dressed men read something about Bill Simpson and the hog and he and another of the fine dressed men had the biggest quarrel you ever heard I thought they would fight every minute, but they didn't. It was Bill Simpson and the hog, and the hog and Bill Simpson, and sometimes Bill Simpson, but seldom. After they quit quarreling, the big man talked awhile to the twelve men, and they went out and stayed a short time, and came back and said something to the man at the desk Then the man on the bench said something to the man that put me in the office, and he took me out and tied me to a persimmon tree, and commenced fighting me with a newhide, and it made me so d—d mad that I shook all the persimmons off the tree

HORRIFIED BRITISHERS.—Shortly after John Morrissey's election to Congress, some wag wrote up a characteristic speech, purporting to have been delivered by John in the House. It savored strongly of the P. R., and was an effort worthy of Nasby. No person, perhaps, enjoyed it more than Morrissey himself The best part of the joke, however, is found in the following from the Pittsburg *Chronicle*:

The most amusing instance of inability to comprehend a joke that has occurred since an English quarterly fiercely and seriously denied Byron's assertion that "I've bribed my grandmamma's review, the British," is furnished by the late London papers. They have somehow got hold of Mr. Morrissey's maiden speech, as imagined by the author of the clever *brochure, Wayside Junction*. This they take for a genuine oration, and base thereon forebodings of the result of Americanising Parliament Their summary of the speech is very funny. "Mr. Morrissey has been making a most extraordinary display of himself in the American Congress. As fast as any deputy spoke, the pugilist interrupted with some coarse professional slang. The House got excited and whereupon this worthy declared that he wouldn't be "handed over to any one in the House," and appealed to the Speaker to prevent him from being "crowded to the ropes" in that manner. He said he did not care for any rules of the House, but he would send up to the Speaker the last number of *Bell's Life*, with the rules of the P R, which he hoped the clerk would read, as also the full score of the "mill" between the Staleybridge Infant an the Brummagem Chicken. This was too much even for Congress, and the drunken blackguard was carried off by the Sergeant at-Arms."

RAZORS.—The edge of a razor, pen-knife, and every other keen instrument, consists of a great number of minute points, commonly called teeth, which, if the instrument is in itself good, and in good condition follow each other through its whole extent with great order and closeness, and constitute, by their unbroken regularity, its excessive keenness. The edge of such an instrument acts on the beard, the skin, or anything else not so much by the direct application of weight or force as being drawn, even slightly along it; because by this operation the fine teeth of which it consists, pass in quick succession in the same direction and over the same part of the substance. Our readers will be convinced of this if they will make the following experiments on their glove or their hand, as they like best. Let them hold the razor either perpendicularly or obliquely, and press on it with some considerable force in a direct line from right to left, and they will have no great reason to fear the consequences; but let them move it from that direction; let them move it towards them, or push it from them, to the smallest degree, in the gentlest manner, and it will instantly make an incision. When they have made this experiment they will be convinced of the truth of what we have asserted, namely, that in the operation of shaving very little weight and even very little force is necessary. Hence it follows that the best razor will have the teeth of its edges set almost as regular as a good saw, and that the best test in buying a razor is to examine the edge by means of a strong magnifying glass. This also explains the good effect on the keenness of a razor caused by dipping it in hot water, which necessarily clears the edges of any small clogging substance.

"PISTOL SHOOTING EXTRAORDINARY.—The New York *Citizen* tells the following rather Munchausenish stories about Recorder Hackett's pistol-shooting prowess:

Recorder Hackett can do more remarkable things with a pistol than any man now living, probably that ever has lived. He can split bullets on the edge of a knife twelve times out of twelve at twenty paces. He will take the ashes off of a friend's cigar, held in that friend's mouth, at the same distance. He will pick away a quarter held between a friend's finger and thumb at thirty yards with unerring certainty. He will shoot half dollars, propped upright, from a friend's head He will kill a musquito on a wall as far as he can see the "unimils," and all these things he will do in any attitude you please—the pistol held on a level with his forehead and turned upside down, fired off between his legs, in a recumbent position—in fact, in any way or every way that will allow one glance of the unerring eye along the barrel. Give him three shots with a crooked pistol to gauge its inaccuracies, and he will aim it as readily as his most familiar weapon. Indeed, one of his favorite pistols is a little ivory-hilted repeater which throws nearly five feet out of gauge in a distance of thirty yards. Judge Hackett has ascertained and makes exact allowance for this eccentricity, and would just as soon shoot a match with this latter weapon as with the most accurate Colt, Derringer, or Manton in his armory

PERRY DAVIS' VEGETABLE PAIN KILLER,

after a thorough trial, by innumerable living witnesses, has proved itself THE MEDICINE OF THE AGE. Although there have been many medicinal preparations brought before the public since the first introduction of Perry Davis' Vegetable Pain Killer, and large amounts expended in their introduction, the Pain Killer has continued to steadily advance in the estimation of the world as the best Family Medicine ever introduced. It is an internal and external remedy. One positive proof of its efficacy is, that the sales have constantly increased, and wholly upon its own merits. The effect of the Pain Killer upon the patient, when taken internally in case of Cold, Cough, Bowel Complaints, Cholera, Dysentery, and other affections of the system, has been truly wonderful, and has won for it a name among medical preparations that can never be forgotten. Its success in removing pain, as an external remedy in case of Burns, Bruises, Sores, Sprains, Cuts, Sting of Insects, and other causes of suffering has secured for it such a host of testimony, as an almost infallible remedy, that it will be handed down to posterity as one of the greatest medical discoveries of the nineteenth century.
